

Middle School Summer Camp

2019 Community Service Project

Craft Time with Mrs. Tabitha: Each week on Thursdays, the Middle School kids will make handmade crafts to be sold at the Oak Forest Summer Camp church service on Sunday August 25th. All crafts made by the Middle School kids will be sold at a craft show. All proceeds will go to the Charity of their choice.

Bake Sale: At the Talent Show on Tuesday August 6th, a Bake Sale will be held and the Middle School kids will help maintain the table while the Elementary kids and parents come to shop. All proceeds will go to the Charity of their choice.

Reward Field Trip: On the last Wednesday of Summer Camp, the Middle School Summer Camp will go on a special field trip to reward the hard work during the community service project. Suggestions for the field trip will be taken and a majority vote will decide the destination.

Every Tuesday after lunch, the middle school kids will join the elementary kids during their reading time to share books of their choosing. The middle schoolers will be placed with groups of 2 or 3 children. They can choose to read to their small group or let the younger children take turns reading to them. Each week the middle schoolers will receive a new group to lead and will bring new books to share!

Game Time

“Game Time” with Mr. Jonathan & Mrs. Kaitlyn: Each week, the Middle School kids will choose and teach a new gym game to the Elementary Summer Camp kids. On Thursday, assigned game leaders will choose or create a new game and with the help of the staff plan the game & logistics. On Friday afternoon, the new game will be taught to the younger kids, and will be played with them in the gym.

Christian Education

The Middle School Program will have Christian Education every Monday and Thursday throughout the summer. The Middle School will be using **“The 13 Most Important Bible Lessons for Teenagers”** curriculum. This curriculum covers important truths in the Bible and utilizes creative methods to have preteens & teens engage the truths in real world applications. Topics covered include:
The reality of God in the world, Who Jesus is & Why we need him, Human Nature, Why is life difficult sometimes, and more.
